PLAYING CONDITIONS.

- 71) The playing area of the table shall not be less than 138.4 cm or more than 143.5 cm in length and not less than 78.7 cm in width, measuring from the inside edge of the cushions.
- 72) The table shall be not less than 86.4 cm and not more than 92.7 cm in height from the floor to the top of the cushion.
- 73) The table must be level and in good condition.
- 74) There shall be one black and two white skittles of equal size and weight. To a height of at least 5.1 cm above its base each skittle should be cylindrical with a diameter between 1.5 cm and 1.8 cm. Skittles should be 11.4 cm tall +/- 0.6 cm. The black skittle shall be placed on a spot, the back edge of which will be 0.6 cm from the front edge of the 200 hole. The white skittles shall be placed on spots level with and 17.8 cm from the centre of the 100 hole.
- 75) A "D" shall be firmly fixed to the table in the centre of the base of the playing area. This should be approximately 4 cm radius and the centre of the "D" shall be clearly marked with a spot, to be known as the break spot.
- 76) Another spot shall be fixed in the centre of the table with its centre not less than 17.1 cm and not more than 17.9 cm from the centre of the break spot on the "D". This shall be known as the red spot.
- 77) Baulk lines shall be clearly drawn on the table radiating from the centre of the base of the playing area to the side cushions so as to form an arc of not less than 150 degrees and not more than 160 degrees.
- 78) The table shall be adequately illuminated.
- 79) One red ball and seven white balls of equal size and weight shall be provided.

RULES OF PLAY.

- 91) All shots must be played with the base of the cue ball within the area of the "D".
- 92) The red ball shall be placed by the hand on the red spot and a white ball placed on the break spot, also by hand. The white ball is then played with a cue onto the red ball with the object of potting one or both balls. This is known as playing from the break position.
- 93) If, from the break position, both balls are potted into any holes, three times consecutively, the player on their next shot shall be barred from potting more than one ball, in accordance with rule 116)e).

- 94) If no balls remain on the table at any time during the course of the game, with the exception of the last ball shot, play will be continued from the break position.
- 95) From the break position the red ball must always be used on the red spot, unless the bar has dropped and the red is no longer available. At any other time use of the red ball as the cue ball is optional.
- 96) Other than from the break position and the last ball shot (see rule 108) the cue ball may be placed anywhere on the "D".
- 97) A white ball potted into a hole shall score the value of that hole. The red ball when potted will score double the value of that hole, provided no penalty has been incurred in either case.
- 98) A break will continue until such time as the player fails to pot a ball or plays a foul shot in accordance with rules 110) and 111).
- 99) At the end of a break the score should be recorded progressively on the scoreboard.
- 100) If during a break a ball on the lip of a hole falls in without being struck by another, the ball shall count as if potted and the score will count. A break will be deemed to have started when the first shot is played and ended when the scorer calls end of break.
- 101) If a player plays at a ball on the lip of a hole and the ball falls before the cue ball reaches it, no penalty will be incurred and the player will continue with his break, except for any penalty incurred before the cue ball reaches the position previously occupied by the object ball.
- 102) If a ball on the lip of a hole falls in after the scorer has called end of break, in conjunction with rule 116)f), this ball shall not count.
- 103) Should a ball knock a skittle off its spot but the skittle does not fall over, the score shall count and the skittle should be replaced in its correct position before the next shot is played, unless prevented by a ball encroaching on the skittle's correct position, in which case it should be replaced as soon as the spot is clear, see rule 114.
- 104) Should any ball be touching a skittle causing it to lean, or preventing it from being respotted, this ball should be returned to the rack AT THE END OF THE BREAK.
- 105) When no balls are left in the rack, play continues by taking the ball furthest from the top (back) cushion. If two balls are equidistant from the top cushion the ball nearest the Centre line of the table should be taken.
- 106) After the Bar has dropped, play should continue until all balls in the rack had been used.
- 107) If two balls are "bridged" over a hole and one must be returned to the player, the scorer must hold the balls, "tilt" the back ball onto the table at its nearest point, and bring the other ball back to the player.
- 108) If only one ball remains, either in the rack or on the table, the break score should be recorded before the last shot is played. The last ball must then be played from the centre of the "D" into either the 100 or the 200 hole OFF ONE SIDE CUSHION. This is known as the 'Last ball shot'. Before playing the last ball shot the white skittles should be placed in the 50 holes and the top holes guarded. If the ball strikes a skittle in the 50 hole, and falls into the 100 or 200 hole, the score will not count. Both players should continue to play the last ball shot alternately until the ball is potted or the black peg is knocked down.
- 109) No one is to touch any ball whilst it is in motion (e.g.: falling down hole), except to prevent the ball from going down the top holes in rule 108).
- 110) Foul shots incurring loss of break score penalty:
 - a) Potting both balls from break position four consecutive times. (Except as in rule 116)e).
 - b) Failing to hit another ball with the cue ball. (Except as in rule 101) and rule 108)).
 - c) Any ball returning over or obstructing the baulk line. A ball shall be deemed to be obstructing the baulk line if, when viewed from directly above, it obscures any part of the line. The ball should be returned to the rack.

- d) Any ball obstructing or hitting the "D". A ball shall be deemed to be obstructing the "D" if, when viewed from directly above, it obscures any part of the "D". The ball should be returned to the rack.
 - e) Any ball mounting the cushion or leaving the table, even if it falls back on the playing surface. The ball should be returned to the rack. It is not a foul shot if a ball bounces upwards and returns to playing surface without touching anything apart from another ball.
 - f) Knocking down a white skittle with a ball.
 - g) Deliberately touching or knocking down a white skittle with cue or hand while the balls are in motion or before a ball has fallen completely down a hole. (Reason - prematurely to avoid penalty, could just pick up the peg and put it back).
 - h) Playing a shot while balls are still in motion or before a ball has fallen completely down a hole.
 - i) The player interfering with the movement of any struck ball before it has completely fallen down a hole.
 - j) Accidentally knocking the cue ball off the "D" with the cue. The cue ball will not be considered to be in play until it is completely clear of the "D" and the baulk line as in b) above and d) above.
 - k) Hitting the cue ball after it has left the "D" (double hitting / push shot).
 - l) Not using the red ball, when available, at the red ball spot, at the break shot.
 - m) Causing a ball resting on the lip of a hole to drop by deliberately disturbing the table.
 - n) Playing the break shot with either ball not on its spot. It is not a foul under this rule if the ball falls off the spot as the player is in the act of striking. Any other penalty incurred will count.
 - o) If the cue ball fails to reach an imaginary line through the black peg and parallel with the top cushion and does not strike another ball, it will be returned to the tray and the player loses his break. (This does not apply to the last ball of the game).
- 111) Foul shots incurring loss of entire score penalty:
- a) Knocking down the black skittle with a ball.
 - b) Deliberately touching the black skittle with a cue or hand while balls are in motion or before a ball has completely fallen down a hole.
- 112) Should both a white and a black skittle be knocked down, if the white skittle falls first, the penalty will be loss of break, unless the white was knocked down deliberately by hand or cue. Should the black skittle fall first, the penalty will be loss of entire score.
- 113) If a player is nudged or jolted while in the act of playing a shot, causing them to play a foul shot, no penalty will be incurred. The scorer should replace the balls in what they consider to be their original positions and the player should then replay their shot.
- 114) If the balls are disturbed in any way other than in the normal course of play, then the scorer should replace the balls in what he/she considers to be their original positions and play should continue. If, in the opinion of the scorer, a ball on the edge of the hole falls due to any accidental or deliberate table movement by the player, that the ball be replaced and will not count and the break will end.
- 115) Deliberately foul shot: If, after the bar has dropped, a player - in the opinion of the scorer - deliberately plays a ball directly into a hole without touching another ball, then the ball should be retrieved, and the other player allowed to play it. Any additional coins required to do so should be provided by the player deemed to have played the foul.
- 116) Scorer and marker:
- a) A competent scorer should be appointed. In intercounties team matches this will be from the team with first break, the other team may supply a marker if they wish.
 - b) The scorer will act as referee and will be the sole arbiter on matters of facts and interpretation of the rules during the course of the game, unless a tournament referee is present as in rule 32).
 - c) The scorer will call out, progressively, the score after each shot.
 - d) Progressive thousands must be recorded either by placing, in clear view, coins or other suitable markers, or alternatively by recording them on the scoreboard.

- e) After a player has potted both balls three times consecutively from the break position, the scorer must clearly warn the player to leave one ball up. Should the scorer fail to do so, the player will not be penalised under rule 110)a).
 - f) If, during the course of play, a ball remains on the lip of a hole, the scorer shall decide when to call end of break in accordance with rule 102). (Player walking away from table does not determine end of break)
 - g) The scorer shall be responsible for ensuring that the scores recorded on the scoreboard are correct.
 - h) A marker may be appointed to record the progressive scores on the scoreboard at the end of each break.
 - i) The marker, if appointed, should check the score as it is called out by the scorer and should draw his attention to any discrepancy at the earliest convenient time.
 - j) No person, other than the scorer or marker, should touch the scoreboard during the course of the game.
- 117) If a ball obstructs the placing of a ball anywhere in the "D", but no foul shot has been played, it will remain there, but will be removed to the trap at the end of the current break (similar to the leaning peg/obstructed spot situation).
- 118) No coaching of players should take place whilst the player is at the table.

APPENDIX

NATIONAL OPEN RANKING RULES

1) **Opens** - Players get points for reaching the **last 32** in the following order -

Winner 15; Runner Up 11; Semi Final 8; Quarter Final 5; Last 16 3; Last 32 1.

In addition a win bonus of **0.5 points** will be given for any match won where ranking points **ARE NOT** at stake (that is to say any round before the last 64). This ensures all players that have won a match will receive some points. In the event of a walkover, no match bonus will be awarded, in the event of a walkover in a later round where ranking points are at stake a player will receive his/her full allotment of points, but will only receive half points if they have not won a match in a previous round.

The 'open' tournaments in 2013 that qualified for ranking points under the above system were the Oxon Open, Guernsey Open, Surrey Open, Off the Spot Open, Sussex Open, Kent Classic, Bucks Open and Berks Open. Any new competition will be discussed by the committee to decide whether it will be eligible for ranking points.

2) **World Champs** - Due to the prestigious nature of this tournament extra ranking points are on offer. Players get points for reaching the **last 64** in the following order

Winner 25; Runner Up 20; Semi Final 15; Quarter Final 10; Last 16 6; Last 32 3; Last 64 1.

With the current group format in place before the last 64 round, players receive 0.5 points for any win in the group stages.

3) **County Champs** - in Division 1 players will receive **1 point** for a leg won with break, and **1.2 points** for legs won against break. These points are converted into the equivalent of 5 matches to keep the points awarded consistent in different years. A **1 point** bonus will be awarded for winning all legs (or 5 out of 6 legs if that many games played)

In Division 2 players will receive **0.5 points** for a leg won with break, and **0.6 points** for legs won against break. As above these points are converted into the equivalent of 5 matches. A **1 point** bonus will be awarded for winning all legs (or 5 out of 6 legs if that many games played)

4) **All England Singles** - Qualified players will receive **1 point** for each leg won and **1 point** for each match won (including final). Points earned in group games will be converted to an equivalent of 4 matches played. The All England Ladies will also now contribute (as they generally cannot qualify for the All England Singles) and will be awarded **2 points** for the winner and **1 point** for the runner up.

5) **Minor Opens** - open tournaments that are considered a 'minor' open by the rankings committee will attract ranking points under their own system decided by the committee. These tournaments are generally considered 'minor' as they are played under different rules to the normal 3 pin game. In 2013 there were two such tournaments that were considered 'minor' and they attract points under the following rules.

a) **Alternative (Triangle) Rules** - Players get points for reaching the **quarter finals** in the following order

Winner 7; Runner Up 5 points; Semi Final 3; Quarter Final 1;

Win bonus to apply but reduced to **0.25 points per win** will be given for any match won where ranking points **ARE NOT** at stake (that is to say any round before the last 16).

b) **Norfolk/Suffolk 4 pin open** - Players get points for reaching the **quarter finals** in the following order

Winner 7; Runner Up 5; Semi Final 3; Quarter Final 1;

Win bonus to apply but reduced to **0.25 points per win** will be given for any match won where ranking points **ARE NOT** at stake (that is to say any round before the last 16).

6) **Pairs** (both Bournemouth and World Champs) points given to **quarter finals** in the following order

Winner 7; Runner Up 5; Semi Final 3; Quarter Final 1.

Win bonus to apply but reduced to **0.25 per win** will be given for any match won where ranking points **ARE NOT** at stake (that is to say any round before the last 16).

The Guernsey Pairs will also attract ranking points, but because of the lower prestige and smaller entry it will only attract half the ranking points set out above.

7) **Plates** – ranking points will be awarded for plate competitions that are played in opens, world champs, minor opens and pairs competitions in the following way.

Opens – **2 points** for winner and **1 point** for runner up in opens. A **0.1 point** win bonus will be awarded for any match won in the plate, before the semi final.

World Champs – **4 points** for winner, **2 points** for runner up and **0.7 points** for the 2 losing semi finalists and **0.1 point** win bonus for each match won before the quarter finals.

Minor Opens – **0.7 points** for winner and **0.35 points** for runner up in minor opens. A **0.05 point** win bonus will be awarded for any match won in the plate, before the semi final.

Pairs – **0.7 points** for winner and **0.35 points** for runner up in pairs comps. A **0.05 point** win bonus will be awarded for any match won in the plate, before the semi final. For Guernsey pairs these points are halved as for the main competition.

In some cases a player may earn both points in the main and plate competition for their progress in each tournament. If this happens the player will only be credited with the higher of the two points awarded (for example a player may have had a bye into the last 32 and go on to win the plate, in this case the player will receive the 2 points for winning the plate and not receive the 0.5 points for reaching the last 32).

8) **Score bonuses** – a score bonus of **0.1 points** will be awarded for leg scores over a set amount in national tournaments and will increase in by 0.1 as the score increase by equal increments. For all tournaments above a score bonus of 0.1 points will be awarded for any leg score over **5,000** points. This will increase by 0.1 points as this score increases by **3,000** increments (so 5,000+ scores get 0.1 point, 8,000 (0.2 points), 11,000 (0.3 points) etc.

The exception to the above is for minor opens where the rules played lower the scoring average per player so the score bonus is adjusted as follows - Alternative Rules will change to 0.1 points awarded from **2,000** at **500** increments, Norfolk/Suffolk 4 pin open will change to 0.1 points awarded from **1,500** at **500** increments.

All matches played will attract score bonuses, including main and plate competitions.

9) **Competition Entry Numbers** – it was decided there should be a reduction in points awarded if the entry numbers are significantly lower than average. For opens and the world champs **75%** ranking points will be awarded if entry drops below **50 players**, **50%** ranking points will be awarded if entry drops below **40 players**. For pairs tournaments **75%** ranking points will be awarded if entry drops below **45 pairs**, **50%** ranking points will be awarded if entry drops below **35 pairs**. For minor open tournaments **75%** ranking points will be awarded if entry drops below **25 players**, **50%** ranking points will be awarded if entry drops below **20 players**.

10) Ranking will be updated on a tournament by tournament basis rather than dropping a whole years points at the end of each year. So for example the 2014 Oxford Open points will replace the 2011 Oxford Open points. This is to ensure there are always 3 years results in the system at all times.

And not forgetting the Ladies, who will have their own separate system to take into account performances in ladies only events, but do of course appear on the national list subject to the rules above

1) Ladies in the past have been awarded all the points they gain in all open tournaments under the rules. above

2) **British Ladies Open** - ladies get points for reaching the **last 16** in the following order –

Winner 18; Runner Up 14; Semi Final 10; Quarter Final 6; Last 16 2.

In addition a win bonus of **0.5 points** will be given for any match won where ranking points **ARE NOT** at stake (that is to say any round before the last 32).

In the event of a walkover, no match bonus will be awarded, in the event of a walkover in a later round where ranking points are at stake a player will receive her full allotment of points, but will only receive half points if they have not won a match in a previous round.

For the plate – **2 points** for winner and **1 point** for runner up. A **0.1 point** win bonus will be awarded for any match won in the plate, before the semi final.

3) **Special Ladies Open** - ladies get points for reaching the **last 16** in the following order –

Winner 15; Runner Up 10; Semi Final 6; Quarter Final 3; Last 16 1.

In addition a win bonus of **0.5 points** will be given for any match won where ranking points **ARE NOT** at stake (that is to say any round before the last 32). Special

For the plate – **2 points** for winner and **1 point** for runner up. A **0.1 point** win bonus will be awarded for any match won in the plate, before the semi final.

4) **Ladies County Champs** – in Division 1 players will receive **1 point** for a leg won with break, and **1.2 points** for legs won against break. These points are converted into the equivalent of 5 matches to keep the points awarded consistent in different year. A **1 point** bonus will be awarded for winning all legs (or 5 out of 6 legs if that many games played)

In Division 2 players will receive **0.5 points** for a leg won with break, and **0.6 points** for legs won against break. As above these points are converted into the equivalent of 5 matches. A 1 point bonus will be awarded for winning all legs (or 5 out of 6 legs if that many games played)

If the divisions are merged so every team plays each regardless of division then the division 2 players will receive ranking points subject to the same rules as the division 1 players

5) **All England Ladies Singles** - Qualified players will receive **1 point** for each leg won and **1 point** for each match won (including final). Points earned in group games will be converted to an equivalent of 3 matches played. If there is no final (because there have not been enough players to make two groups) the winner receives **2 extra points** and the runner up **1 point**.

6) **Competition Entry Numbers** – it was decided there should be a reduction in points awarded if the entry numbers are significantly lower than average. For both the British Ladies and Special Ladies opens **75%** ranking points will be awarded if entry drops below **8 players**.

7) Ranking will be updated on a tournament by tournament basis rather than dropping a whole years points at the end of each year. So for example the 2014 Oxford Open points will replace the 2011 Oxford Open points. This is to ensure there are always 3 years results in the system at all times.
